Recall #: R0286 | Seat Belt Buckle Assembly (Interim - Recall Remedy Not Yet Available) Recall Date: 2025 Sep 11

Recall Description

Issue: The subject vehicles are equipped with seat belt buckle assemblies that may have been manufactured with out-of-specification components by the supplier, resulting in interference within the latch channel. Improperly produced seat belt buckles, combined with slow insertion of the seat belt tongue plate, may prevent the seat belt buckle from fully latching. Safety Risk: An inability to fasten the seat belt in an occupied seat could increase the risk of injury to occupant(s) during a crash. Precautions: Owners are advised to fasten the seat belt firmly into the buckle with quick and direct motion. Once buckled, pull on the belt to confirm the seat belt is fully seated into the buckle. Fasten and confirm seat belts are fully buckled for all passengers who require assistance, such as children. If the seat belt does not remain secured, cannot be fastened completely, or if you experience any other issue with the seatbelt(s), contact your Hyundai dealer to have the vehicle inspected. Corrective Actions: Hyundai Canada will notify owners in writing advising them to bring their vehicles to a dealership for an inspection and/or replacement of the seat belt buckle assemblies, as necessary. The remedy procedure will be performed at no charge to the owner.
