Recall #: R0286 | Seat Belt Buckle Assembly Recall Date: 2025 Nov 27

Recall Description

Issue: The subject vehicles are equipped with seat belt buckle assemblies that may have been manufactured with out-of-specification components by the supplier, resulting in interference within the latch channel. Improperly produced seat belt buckles, combined with slow insertion of the seat belt tongue plate, may prevent the seat belt buckle from fully latching. Safety Risk: An inability to fasten the seat belt in an occupied seat could increase the risk of injury to occupant(s) during a crash. Precautions: Owners are advised to fasten the seat belt firmly into the buckle with quick and direct motion. Once buckled, pull on the belt to confirm the seat belt is fully seated into the buckle. Fasten and confirm seat belts are fully buckled for all passengers who require assistance, such as children. If the seat belt does not remain secured, cannot be fastened completely, or if you experience any other issue with the seatbelt(s), contact your Hyundai dealer to have the vehicle inspected. Corrective Actions: Hyundai Canada will notify owners in writing advising them to bring their vehicles to a dealership for an inspection and/or replacement of the seat belt buckle assemblies, as necessary. The remedy procedure will be performed at no charge to the owner.

Recall Description

Issue: The subject vehicles may not meet the allowable third row headform displacement requirements set forth in Canadian Motor Vehicle Safety Standard ("CMVSS") No. 226, "Ejection Mitigation." Safety Risk: A vehicle that fails to comply with this standard might have increased risk of injury to third row occupants during certain crashes including a rollover. Precautions: No precautionary measures are to be taken at this moment; however, if you experience any issues with your vehicle, please contact your dealer immediately. Corrective Actions: Hyundai Canada will notify owners in writing advising them to bring their vehicles to a dealership for completion of the remedy. The remedy procedure will be performed at no charge to the owner.

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
