# Vehicle History Report + Liens

## Rights of retention

 No lien found **British Columbia**.

### How we check retention rights

CARFAX Canada uses the VIN to search government records in every Canadian province and territory (excluding the Northwest Territories) where the vehicle is currently registered and has been historically registered. We do not verify liens or title in any U.S. state.

If a VIN has no registration record in Canada, we cannot verify liens. We cannot guarantee liens on trailers, recreational vehicles, or heavy equipment.

Buyers should always obtain written confirmation from the sellers that there is no lien on the vehicle.

### CARFAX Canada Canadian Lien Guarantee

If, for any reason, our lien verification does not accurately reflect the Canadian enforceable lien status of a vehicle at the time of the search, CARFAX Canada will reimburse the party who purchased the report and relied upon it to their detriment for a maximum amount of (1) the value of the automobile (2) the value of the lien (3) Five Thousand Canadian Dollars (\$5,000.00), whichever is less.

## Accidents/damages

 **Please note:** This vehicle was registered in British Columbia, but this report does not include information provided by ICBC, the province's insurance provider. To obtain ICBC records for this vehicle, [please see our FAQ](#) for next steps.

## Registration

 This vehicle was registered in the province of **British Columbia, Canada** with the status of **Salvage** .

### Details:

The damage to the vehicle is so extensive that the cost of repairing the vehicle to get it back on the road exceeds its market value.

**We checked for:** *Inspection Required, Normal, Not Repairable, Rebuilt, Salvaged and Stolen.*

## Unpaid reminders

Recall #: WUE-90 | Brake Light Switch    Date of recall: March 1, 2019

**Description of the recall**

On certain vehicles the brake lamp switch could fail. This would cause the brake lamps not to turn on when the brakes are applied. Depending on the model this could cause an inability to shift from park or to start using the push-button ignition. This may also cause problems with the following: anti-lock brake system (ABS) vehicle dynamics control (VDC) and/or Eyesight system.

**The Dealer fix**

will replace the brake lamp switch.

This recall was in effect as of the date/time this report was generated. For more information, or to find out if the recall is over, please contact SUBARU or visit the [Subaru website](https://www.subaru.ca/WebPage.aspx?WebSiteID=284&WebPageID=21096).
