Recall #: WRL-22 | 2019-2022 MY Ascent PTC Heater Ground Bolt Recall Date: 2022 Dec 01

Recall Description

On certain vehicles the bolt for the ground terminal on the auxiliary heater may not have been properly tightened. As a result the ground terminal and nearby parts could overheat and melt.

Remedy

Subaru will notify owners by mail and instruct you to take your vehicle to a dealership to replace the PTC heater ground bolt. The ground wire and the connector holder will be replaced if necessary. Subaru advises that you should not leave the vehicle running while unattended and that you should park it outdoors and away from other vehicles or structures until the recall repairs have been completed. An owner who notices or smells smoke coming from the dash or driver's footwell area should immediately stop operating the vehicle and turn the ignition switch to the "Off" position and the vehicle should not be operated. If this occurs the owner should immediately contact Subaru's Roadside Assistance or the nearest Subaru dealer for assistance.
