A fuel pump relay failure can result in a stall condition if the vehicle is running or a no-start condition if not running.

Remedy

FCA US will conduct a Voluntary Safety Recall on affected vehicles to replace the affected fuel pump relay and related wire harness. For vehicles that have not been serviced for recall P54 or R09, a new externally mounted relay and wire harness will be installed to bypass the fuel pump relay that is internal to the totally integrated power module. For vehicles that have already been serviced for recall P54 or R09, the existing externally mounted fuel pump relay and wire harness will be replaced with a new relay and wire harness.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact JEEP or visit Jeep's website. (https://www.mopar.com/en-ca/my-vehicle/recalls/search.html)
