Recall #: CAN228 | 228 - Remedy Notice - Certain 2012 - 2013 Model Year Tacoma, RAV4 vehicles - Brake Actuator Reprogramming

Recall Date: 2014 Feb 12

Recall Description

The integrated system providing enhanced vehicle control, including features like Anti-Lock Braking (ABS), Traction Control (TRAC), and Vehicle Stability Control (VSC), can intermittently become inoperative and illuminate one or more warning lamp(s) due to an electrical circuit condition (Diagnostic Trouble Code C1428 will also be stored in the vehicle's self-diagnostic system). If the ABS, TRAC, and VSC functions become inoperative, this can increase the risk of a crash.

Remedy

Toyota will perform a software update to the Skid Control Electronic Control Unit (ECU) in the subject vehicle.

Recall #: CANR09 | R09 - Remedy Notice - Certain 2009-2012 model year RAV4 vehicles - Wiper Motor Link Corrosion (Ph2 Remedy)

Recall Date: 2015
Sep 17

Recall Description

In the involved vehicles, water dripping onto the windshield wiper motor link can, over time, cause corrosion and wear at the wiper link joint. In some cases, this could result in the separation of the wiper link from the wiper motor crank arm. If separation occurs, the windshield wipers could become inoperative, which could reduce driver visibility and increase the risk of a vehicle crash.

Remedy

Toyota will provide a two-phase remedy at no cost to you. Due to parts availability, each phase will be released at different times.1) Replacement of the front wiper crank arm sub-assembly with an improved part. (March 2016)2)Replacement of the cowl louver with an improved part. (TBD)

Recall #: CANR17 | R17 - Remedy Notice - Certain 2006-2012 model year RAV4 vehicles - Rear Seat Cushion Frame

Recall Date: 2016 Feb
17

Recall Description

On certain vehicles, in the event of a severe frontal collision, there is a possibility that the webbing of the seat belt in both second-row outboard seating positions could contact a portion of the metal seat cushion frame, become cut, and separate.

Remedy

Dealers will install plastic protectors on the seat cushion frame in both second-row outboard seating positions.

ICBC Disclaimer
The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
