Date	Mileage	Source	Comments
08/28/2007		Quebec Motor Vehicle Dept.	Registration issued or renewed - First owner reported - Registered as personal vehicle
08/28/2007	9	Sherlock Antitheft Marking sherlock.ca	Vehicle equipped with - Intensive Antitheft - Marking system - Odometer reported as 14 kilometers
03/05/2010		Toyota Canada Inc.	Manufacturer Safety recall issued - Transport Canada #09-290 - Recall #CAN011 SAFETY RECALL 011 - REMEDY NOTICE - CERTAIN 2007-2010 MODEL YEAR CAMRY VEHICLES - PEDAL MODIFICATION, FLOOR MODIFICATION AND BRAKE OVERRIDE - Status: Remedy Available

[⊖ Learn more about this recall](#)

Description: The condition involves the potential risk for the accelerator pedal to get stuck in the wide open position due to an unsecured or incompatible drivers floor mat. A stuck open accelerator pedal may result in very high vehicle speeds and make it difficult to stop the vehicle, which could cause a crash, serious injury or death. Toyota Canada has confirmed that the potential risk for accelerator pedal entrapment due to an incompatible or unsecured drivers side floor mat in vehicles included in the safety improvement is not due to a vehicle defect. It has also been determined that genuine Toyota Canada drivers side all weather floor mats sold and distributed by Toyota Canada for the affected vehicles are compatible with the specific vehicle model for which the floor mat was designed and intended to be used. Also, when the correct Toyota drivers side all-weather floor mat is properly secured using the retaining clips provided with the vehicle and installed following the proper installation instructions, there is no risk of pedal entrapment.

A stuck open accelerator pedal may result in very high vehicle speeds and make it difficult to stop the vehicle, which could cause a crash, serious injury or death.

Remedy: To help avoid the risk that an unsecured or incompatible drivers floor mat can interfere with the accelerator pedal on your vehicle, any Toyota dealer will provide certain vehicle improvements for your vehicle. The improvements will involve modification to both

the accelerator pedal and the floor surface in the drivers foot-well. As an additional measure, independent of the vehicle-based improvements indicated above, Toyota will also install a newly designed brake override system in your vehicle to provide an extra measure of confidence. This system will cut engine power in case of simultaneous application of both accelerator and brake pedals at certain speeds and driving conditions.

10/10/2012

Toyota Canada Inc.

Manufacturer Safety recall issued

- Transport Canada #12-338
- Recall #CAN177 SAFETY RECALL 177
- REMEDY NOTICE - CERTAIN 2007-2009 MY YARIS, RAV4, TUNDRA, CAMRY/HV, SEQUOIA, HIGHLANDER/HV, COROLLA, MATRIX VEHICLES - POWER WINDOW MASTER SWITCH
- Status: Remedy Available

⊖ [Learn more about this recall](#)

Description: The Power Master Switch (PWMS), located on the drivers door, controls the windows for the driver and passengers. Over time, the sliding electrical contact module in the drivers side PWMS may experience a notchy or sticking feeling during operation due to uneven application of a grease lubricant to certain switch components.

If commercially available lubricants are applied to the switch in an attempt to address the notchy or sticky feel, melting or smoking of the switch assembly, or, under some circumstances, a fire could occur.

Remedy: Any Toyota dealership will inspect the PWMS and apply a specialized grease. The electrical circuit board for the PWMS may be replaced if your dealership determines it requires replacement during the inspection.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Toyota Recall / Service Campaign

Portions of this report have been included under license from Toyota Motor North America, Inc. ("TOYOTA"), License Agreement TMS1013 . This data applies only to vehicle marketed or originally sold in Mexico and the United States of America, including Guam, Saipan, American Samoa, Puerto Rico, the U.S. Virgin Islands and the other United States territories and protectorates with currently open safety or emissions recalls, or service campaigns. While TOYOTA provides data to Carfax Inc. on a regular basis, this report may not include very recent activity. For the manufacturer's most current information on recall/campaign activity for any Toyota, Lexus or Scion brand vehicle, you must go to <http://toyota.com/recall> or <http://lexus.com/recall>.
