## Open Recalls

Recall #: 91NY | CAMERA CONTROL UNIT Recall Date: 2025 Feb 14

### Recall Description

An error may occur during camera control unit startup and, as a result, the vehicle may not display a rearview camera image. The acoustic and visual warning (bar display) from the parking assistance system will still function. A rearview camera image that is not available when reversing may impair the drivers ability to see areas to the rear of the vehicle. This can increase the risk of a crash..If the recall condition is present in the vehicle, the driver will notice that there is no image on the screen after engaging the Reverse gear or pressing the parking assistance button. Should this occur, owners are advised to use extra caution when reversing, and to contact an authorized dealer.

### Remedy

Update the camera control unit software.
