Recall #: P0A08 | MUR QST BRK FLD FLH NTB21047 Recall Date: 2021 May 27

Recall Description

A potential chemical reaction between the valve surface coating (Chromate layer) and the DOT3 brake fluid may cause a Gel to form around the normally closed (NC) valve. In some cases, it can cause the NC valve to be stuck open. The NC valve inside the ABS actuator may stick open and direct additional brake fluid flow to a reservoir inside the ABS actuator. As a result, the brake fluid pressure may fluctuate and the customer may experience increased brake pedal travel.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact NISSAN or visit [Nissan's website](https://www.nissanusa.com/recalls-vin.html). (https://www.nissanusa.com/recalls-vin.html)

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
