Recall #: 58C9 | CHILD LOCKS REAR DOORS Recall Date: 2016 Jul 28

Recall Description

A rear door child safety lock keeps a rear door from being opened from the inside of the vehicle, so that children cannot open it accidentally.

When the child safety lock is properly engaged, a rear door can only be opened from the outside. In affected vehicles it is possible in rare cases that a child lock on a rear door may disengage as a result of external vehicle vibration (as when closing a vehicle door).

Remedy

Dealers will inspect and, if necessary, replace the child lock(s).

This recall was open as of the date/time that this report was generated.
