Open Recalls

Recall #: CANR09 | R09 - Remedy Notice - Certain 2009-2012 model year RAV4 vehicles - Wiper Motor Link Corrosion (Ph2 Remedy)

Recall Date: 2015 Sep 17

Recall Description

In the involved vehicles, water dripping onto the windshield wiper motor link can, over time, cause corrosion and wear at the wiper link joint. In some cases, this could result in the separation of the wiper link from the wiper motor crank arm. If separation occurs, the windshield wipers could become inoperative, which could reduce driver visibility and increase the risk of a vehicle crash.

Remedy

Toyota will provide a two-phase remedy at no cost to you. Due to parts availability, each phase will be released at different times.1) Replacement of the front wiper crank arm sub-assembly with an improved part. (March 2016)2)Replacement of the cowl louver with an improved part. (TBD)

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit Toyota's website. (https://www.toyota.ca/toyota/en/owners/recalls)

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.
