Recall #: AKB1 | Replacing plastic bushing on selector lever cable Recall Date: 2019 Jun 26

Recall Description

Due to insufficiently durable material of the plastic bushing for the selector lever cable which could degrade over time, the durability of the selector lever cable cannot be guaranteed over the service life of the vehicle.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact PORSCHE or visit Porsche's website. (https://recall.porsche.com/)

Recall #: ANB4 | Retrofit sealing cap on front left and right main headlamp Recall Date: 2022 Aug 25

Recall Description

On the affected vehicles, it is possible that a sealing cap, which prevents the horizontal adjustment of the main headlights, was not fitted during vehicle assembly. If this is the case, certain legal requirements in the USA and Canada markets are not met. In order to bring the main headlights into compliance with the legal requirements, the installation of the sealing cap must be checked and, if necessary, a sealing cap must be retrofitted to the adjusting screw for the horizontal adjustment of the headlights.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact PORSCHE or visit **Porsche's website**. (https://recall.porsche.com/)

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at http://apps.icbc.com/registration/vchr/Limitation.html.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
