Recall #: R0218 | SEATBELT PRETENSIONER Recall Date: 2022 Jun 15

Recall Description

Issue: On certain vehicles, there may be a problem with the driver and front passenger seat belt pretensioners. As a result, the seat belt pretensioners could explode in a crash. If this happens, small pieces of metal could hit people in the vehicle.

Note: This recall affects Elantra and Elantra Hybrid models, and replaces recalls R0209 (Transport Canada No. 2022-098) and R0200 (Transport Canada No. 2021-627). Vehicles that were repaired under those recalls also require this repair. Safety Risk: A seat belt pretensioner that explodes could create a risk of injury. Corrective Actions: Hyundai will notify owners by mail and instruct you to bring your vehicle to a dealership to install a protective cap over the driver and front passenger's seat belt pretensioners. Note: Due to limited parts availability, your dealer may not be able to immediately schedule your repair.

Hyundai continues to work to obtain sufficient parts to complete all vehicle repairs. Owners will receive individual notifications when when sufficient parts are available.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact HYUNDAI or visit [Hyundai's website](https://recall.hyundaicanada.com/). (<https://recall.hyundaicanada.com/>)
