Recall #: C0278 | FRONT COIL SPRING INSPECTION AND URETHANE TUBE INSTALLATION Recall Date: 2016 Nov 30

Recall Description

On certain vehicles, the front suspension coil springs may be susceptible to corrosion. Over time, corrosion could cause the springs to fail, potentially damaging front tires and causing rapid air loss and/or tire failure, which could increase the risk of a crash causing injury and/or property damage. Correction: Dealers will inspect and repair or replace coil springs as necessary, under a special service campaign.

Recall #: R0171 | Accessory Trailer Module Replacement Recall Date: 2021 Feb 24

Recall Description

Issue: Certain vehicles may be equipped with an accessory trailer wiring harness kit that could fail. Over time, this could result in a short circuit that can cause overheating of the control module. Note: This recall only affects Hyundai Genuine Accessory trailer wiring harness kits that were manufactured by third parties and sold in Canada. These kits may have been ordered at the time of a vehicle purchase, or purchased separately from a dealer as an aftermarket accessory. Safety Risk: A short circuit could create a fire risk. This risk remains even when the vehicle is parked. Corrective Actions: Hyundai will notify owners by mail and instruct you to inspect your vehicle to see if it has an affected trailer wiring harness installed. If it does, Hyundai will advise you to take your vehicle to a dealer to install a redesigned trailer wiring harness. Hyundai recommends that you should park your vehicle outdoors, and away from other vehicles or structures until the recall repairs have been completed.

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
