This vehicle history report is based on information (https://www.carfax.ca/vehicle-history-data) that was reported and available to CARFAX Canada as of April 01, 2026 (or once all the data was collected from our data sources and the report was complete). CARFAX Canada draws on billions of data records from thousands of sources across North America, and we receive new historical data records every day. **There may be other information about this vehicle that has not been reported to CARFAX Canada.** When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

- In the province of **Ontario** with **Normal** branding.
- In the province of **British Columbia** with **Normal** branding.

We checked for: *Inspection Required, Normal, Non-repairable, Rebuilt, Salvage and Stolen.*

Open Recalls

Recall #: CANR09 | R09 - Remedy Notice - Certain 2009-2012 model year RAV4 vehicles - Wiper Motor Link Corrosion (Ph2 Remedy)

Recall Date: 2015 Sep 17

Recall Description

In the involved vehicles, water dripping onto the windshield wiper motor link can, over time, cause corrosion and wear at the wiper link joint.

2T3BF4DVXAW053404

In some cases, this could result in the separation of the wiper link from the wiper motor crank arm. If separation occurs, the windshield wipers could become inoperative, which could reduce driver visibility and increase the risk of a vehicle crash.

Remedy
Toyota will provide a two-phase remedy at no cost to you. Due to parts availability, each phase will be released at different times.1) Replacement of the front wiper crank arm sub-assembly with an improved part. (March 2016)2)Replacement of the cowl louver with an improved part. (TBD)

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit **Toyota's website.** (https://www.toyota.ca/toyota/en/owners/recalls)

Recall #: CANR10 | R10 - Remedy Notice Certain Toyota Camry, Camry HV, RAV4, Corolla, Matrix, Tundra, Sequoia, Highlander, Yaris, Scion xB and Scion xD vehicles (2006 - 2011) Power Window Master Switch Assembly

Recall Date: 2015 Oct 21

Recall Description
The Power Window Master Switch (located on the driver's door) in the above vehicles may have been manufactured with insufficient lubricant grease. If sufficient grease is not applied, under certain conditions the switch may develop a short circuit that can cause the switch assembly to overheat and melt. A melting switch can produce smoke and potentially lead to a fire.

Remedy
The remedy will involve an inspection, switch disassembly, and application of a specialized grease. In a limited number of cases, the electronic circuit board in the Power Window Master Switch will be replaced.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit **Toyota's website.** (https://www.toyota.ca/toyota/en/owners/recalls)

Recall #: CANR17 | R17 - Remedy Notice - Certain 2006-2012 model year RAV4 vehicles - Rear Seat Cushion Frame

Recall Date: 2016 Feb 17

Recall Description
On certain vehicles, in the event of a severe frontal collision, there is a possibility that the webbing of the seat belt in both second-row outboard seating positions could contact a portion of the metal seat cushion frame, become cut, and separate.

Remedy
Dealers will install plastic protectors on the seat cushion frame in both second-row outboard seating positions.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit **Toyota's website.** (https://www.toyota.ca/toyota/en/owners/recalls)

Stolen Vehicle Check

This vehicle is not actively declared stolen.

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at http://apps.icbc.com/registration/vchr/Limitation.html.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.

This vehicle history report is compiled from multiple data sources. It is not always possible for CARFAX Canada ULC or its source data providers to obtain complete information on any one vehicle. For example, there may be other title, brands, registrations, declarations, accident information, service records, recall information, odometer readings or other information where discrepancies that apply to this vehicle are not reflected in this report. CARFAX Canada and its source data providers receive data and information from external sources believed to be reliable, but no responsibility is assumed by CARFAX Canada, its source data providers or its agents for any errors, inaccuracies or omissions. The reports are provided strictly on an as-is where-is basis, and CARFAX Canada and its source data providers further expressly disclaim all warranties, express or implied, including any warranties of timeliness, accuracy, merchantability, merchantable quality or fitness for a particular purpose regarding this report or its contents. Neither CARFAX Canada nor any of its source data providers shall be liable for any losses, expenses or damages in connection with any report or any information contained within a report, including the accuracy thereof or any delay or failure to provide a report or any information. Other information about the vehicle that is the subject matter of this vehicle history report, including problems, may not have been reported to CARFAX Canada. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car. By obtaining, reviewing and/or using this vehicle history report, you agree to be bound by all of the terms and conditions in CARFAX Canada's Conditions of Use and any CARFAX Canada End User Licence Agreements as each may be amended from time to time by CARFAX Canada.
