Recall #: R24B7 | PATH HOOD LATCH NTB22-053 Recall Date: 2024 Dec 06

Recall Description
On certain 2013-2016 Pathfinder vehicles, dust or dirt contamination may accumulate on and around the secondary latch lever pivot joint. Over time, the build-up of contamination, combined with a lack of proper inspection and maintenance of the secondary latch (as described in the Owner s Manual), can create mechanical binding that could cause the lever to remain in the open position after it has been disengaged. In addition, this contamination can scratch the secondary latch s protective anti-corrosion coating, allowing corrosion of the bare metal in the pivot joint.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact NISSAN or visit [Nissan's website](https://www.nissanusa.com/recalls-vin.html). (https://www.nissanusa.com/recalls-vin.html)
