Recall #: 01C | 2017-2019 KL Two Speed PTU Failure Recall Date: 2025 Jan 23

Recall Description

Some 2017-2019 MY Jeep Cherokee vehicles may have been built with an improperly seated input shaft snap ring in the two-speed Power Transfer Unit ("PTU"). An input shaft snap ring that is not fully seated may allow uncontrolled movement of the input shaft inward.

Uncontrolled movement leads to the potential for wear to the range shift sleeve, spline damage, and / or range fork damage which can cause an unexpected loss of motive power or loss of PARK function while stationary.

Remedy

FCA US will conduct a voluntary safety recall on all affected vehicles to reprogram the Drivetrain Control Module ("DTCM") with new software to detect, and monitor for, excessive wear within a PTU. If a PTU failure is confirmed by the software, FCA US will replace the PTU. FCA US will provide a Warranty Extension (FCA campaign ID #XX1) for all impacted customers experiencing messaging related to the defect to replace the PTU. Warranty Extension terms are unlimited years/unlimited mileage.

This recall was open as of the date/time that this report was generated. ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.

Neither CARFAX Canada nor any of its source data providers shall be liable for any losses, expenses or damages in connection with any report or any information contained within a report, including the accuracy thereof or any delay or failure to provide a report or any information. Other information about the vehicle that is the subject matter of this vehicle history report, including problems, may not have been reported to CARFAX Canada.
