Recall #: R0153 | Product Improvement Campaign - KSDS Update Recall Date: 2018 Sep 01

#### **Recall Description**

Issue: Hyundai Auto Canada is conducting a Product Improvement Campaign that provides an update to the engine control module to detect potential problems before an engine fails. An engine failure would cause a sudden loss of power with an inability to restart. Safety Risk: A sudden loss of engine power could increase the risk of an accident. Corrective Actions: The company will notify owners by mail. Owners will be instructed to take their vehicle to a dealer to update the software for the engine control module. Note: The Transport Canada Campaign number was changed to 2019-640. Vehicles previously repaired under Transport Canada Campaign number 2019-130 do not require this software update. Recall #: C0367 | Auxiliary Carbon Canister Install Recall Date: 2019 Nov 18

#### **Recall Description**

Issue: On certain vehicles, the evaporative canister may have a defective sponge that is too short in length causing charcoal dislodging to occur. This may reduce the effectiveness of the canister and result in emissions exceeding the prescribed standards. Corrective measures: Dealers will install an auxiliary canister on all affected vehicles.

Safety Risk: A short circuit could create a fire risk. Corrective Actions: Hyundai will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the ABS module and replace it, if necessary. The dealer will also replace the ABS multi-fuse. Recall #: C0525 - LM | Underbody Corrosion Recall Date: 2023 Dec 04

#### **Recall Description**

Issue: Hyundai Auto Canada is conducting a Special Service Campaign that provides anti-corrosion treatment to certain underbody components. Over time, components under the vehicle, including brake lines could corrode. In extreme cases, a brake line could fail and leak. A brake fluid leak can result in reduced braking. Safety Risk: Reduced braking can cause an extended stopping distance and increase the risk

of a crash. Corrective Actions: Hyundai will notify owners by mail and advise you to take your vehicle to a dealership to inspect the underbody, including the brake lines. The dealer will apply an anti-corrosion treatment to certain parts, and replace the brake lines if necessary.
