This vehicle history report is based on information (https://www.carfax.ca/vehicle-history-data) that was reported and available to CARFAX Canada as of May 21, 2025 (or once all the data was collected from our data sources and the report was complete). CARFAX Canada draws on billions of data records from thousands of sources across North America, and we receive new historical data records every day. There may be other information about this vehicle that has not been reported to CARFAX Canada. When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

Recall #: N232403240 | Child Seat Anchor Interference Recall Date: 2023 May 11

Recall Description

General Motors has decided that certain 2020 – 2023 model year Chevrolet Equinox and GMC Terrain vehicles may not conform to S9.1.1(a) of Federal/Canada Motor Vehicle Safety Standard (FMVSS) No. 225, "Child restraint anchorage systems.", (CMVSS) No. 210.2, "Lower Universal Anchorage Systems for Restraint Systems and Booster Seats". One or more of the four rear seat lower child seat LATCH anchorage bars may have been finished with excessive powder coating, which could cause portions of the bar to exceed FMVSS 225's 6 mm ± 0.1 mm diameter requirement.

Remedy

Dealers will inspect and, if necessary, remove and replace the finish on rear seat lower child seat LATCH anchorage bars.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact GMC or visit **GM's website**. (https://my.gm.ca/gm/en/recalls)

Stolen Vehicle Check

This vehicle is not actively declared stolen.
