Open Recalls

Recall #: WRQ-23 | Inhibitor switch malfunction Recall Date: 2023 Nov 10

Recall Description

A worn welding jig resulted in an insufficient weld thickness between the switch stator and cover of the inhibitor switch. This condition may result in a loss of sealing integrity and allow water intrusion. Over time moisture intrusion may cause electrical corrosion leading to the inhibitor switch to become inoperative. An inoperative inhibitor switch may result in the backup lamps not illuminating when in reverse gear the rear-view monitor not displaying the transmission gear select indicator in the instrument panel not being displayed or inability to start the engine.

Remedy

For all of the potentially affected vehicles Subaru will replace the inhibitor switch with a new one at no cost to the customer.

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
