Recall #: WTQ-76 | Subwoofer overheat - 2015 WRX and WRX/STI Recall Date: 2017 Jun 10

Recall Description

On certain vehicles equipped with a factory installed subwoofer located inside the trunk luggage in the trunk could come into contact the subwoofer wire and move the wire out of its normal position. This could damage the integrated circuit in the subwoofer amplifier and could create a continuous electrical current resulting in the subwoofer overheating and would increase the risk of fire causing injury and/or damage to property.

Remedy

To correct this condition Subaru will add wire retainer clips to the subwoofer at no cost to you. In the rare event that the subwoofer has experienced the condition where the wires are contacting the metal frame of the subwoofer the subwoofer may be replaced at no cost to you.

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
