This vehicle history report is based on information (https://www.carfax.ca/vehicle-history-data) that was reported and available to CARFAX Canada as of May 29, 2025 (or once all the data was collected from our data sources and the report was complete). CARFAX Canada draws on billions of data records from thousands of sources across North America, and we receive new historical data records every day. There may be other information about this vehicle that has not been reported to CARFAX Canada. When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

# **Vehicle History Report**

2015 Jul 28	78,565 KM	Shaganappi Chevrolet Calgary, Alberta, Canada	Vehicle serviced

## **Open Recalls**

Recall #: N140172 | UNINTENDED IGNITION KEY ROTATION Recall Date: 2014 Jul 21

#### **Recall Description**

General Motors has decided that a defect which relates to motor vehicle safety exists in all 2003-2010 model year (MY) Cadillac CTS, 2011 MY

Cadillac CTS (VIN D and Built Prior to December 13, 2010) and 2004-2006 MY Cadillac SRX vehicles. If the key ring is carrying added weight and the vehicle goes off road or experiences some other jarring event, it may unintentionally move the key away from the "run" position.

#### Remedy

Dealers are to install two 16mm outer diameter key rings and an insert in the key slot or a cover over the key head on all ignition keys.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CADILLAC or visit **GM's website**. (https://my.gm.ca/gm/en/recalls)

Recall #: N100355 | PASSENGER SENSING SYSTEM Recall Date: 2011 Mar 23

#### **Recall Description**

General Motors is recalling certain model year 2005-2007 Cadillac CTS vehicles. Some of these vehicles have a condition in which repeated flexing of the passenger sensing system mat in the front passenger seat may cause the mat to kink, bend, or fold. This flexing can break the connections in the mat. If this occurs, the sensor may not detect the presence of a front seat passenger and will disable the air bag.

#### Remedy

Dealers will replace the passenger sensing system free of charge.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CADILLAC or visit **GM's website**. (https://my.gm.ca/gm/en/recalls)

### Stolen Vehicle Check

This vehicle is not actively declared stolen.
